AZ CORP COMMISSION
DOCKET CONTROL

RE: Decision 69951 – Compliance of Condition #15
Docket #W-02466A-06-0504

To Whom It May Concern:

Per Decision 69951 dated October 30, 2007, the attached satisfies a portion of Item 15, "requirement that the company file, within two years of the effective date of this Decision, with Docket Control, as a compliance item in this docket, a copy of the applicable ADEQ Certificate of Approval of Construction for the water facilities need to serve the required area".

The due date of this compliance item was within two years of the effective date (10-30-2007) of this decision.

Also as per Decision 69951, this compliance filing being sent to:

Compliance Section, ATTN: Brian

APPROVAL OF CONSTRUCTION
(APPROVAL TO OPERATE)**

1. This approval is based solely on the engineer's certification in the Engineer's Certificate of Completion that construction of this system complies with the key elements of the approved plans and the ADEQ minimum design and construction standards contained in statute, rule or referenced codes.
2. The Department cannot assure that conditions and requirements specified by state regulations, guidelines, or in the approved plans have been met. This Approval should not be construed or implied as a guarantee or warranty of the quality of construction or accuracy of dimensions nor does this Approval in any way relieve any other party from meeting requirements or obligations imposed by contract or any other means, including commonly accepted industry practices.

The Department or its employees assume no responsibility for, nor is the owner, contractor or any other party relieved of any legal obligations or responsibility for compliance with applicable laws or the Approval to Construct by virtue of this Approval.

This approval shall be null and void if an undiscovered defect or omission in manufacturing, design, installation or operation is in violation of the key elements of the approved as-built plans, applicable laws, rules, regulations, bulletins, or the Approval to Construct. Upon discovery of said defect, the Department may require the project owner to submit plans to correct the defect, and then correction.

3. Project Storm Water Pollution Prevention Plan (SWPPP) shall remain operational until all areas of the construction site, not otherwise covered by permanent pavement or structure, have been stabilized with a uniform perennial vegetative cover with a density of 70% (of ambient) or equivalent measures have been employed (final stabilization & Notice of Termination).
